William Bendix stars as Chester A. Riley in producer Irving Brecher's outstanding radio

comedy series The Life of Riley. Co-starring with Bendix is Paula Winslowe as Riley's long-suffering wife, Peg, and John Brown performing in two roles, that of Riley's pal Gillis and, most memorably, as the hilarious "friendly undertaker" Digger O'Dell. This collection features sixteen classic radio episodes, including rare and previously unavailable selections, all digitally remastered and restored for your listening enjoyment. Also included is a Program Guide by radio historian Ivan G. Shreve, Jr. with photographs and background information about the show.
