Cell Therapy: cGMP Facilities and Manufacturing is the source for a complete discussion of facility design and operation with practical approaches to a variety of day-to-day activities, such as staff training and competency, cleaning procedures, and environmental monitoring. This in-depth book also includes detailed reviews of quality, the framework of regulations, and professional standards. It meets a previously unmet need for a thorough facility-focused resource, Cell Therapy: cGMP Facilities and Manufacturing will be an important addition to the cell therapy professional's library. Additional topics in Cell Therapy: cGMP Facilities and Manufacturing!Standard operating procedures - Supply management - Facility equipment - Product manufacturing, review, release and administration - Facility master file.
