Wyatt Prunty's eighth collection, *The Lover's Guide to Trapping*, opens with a Homeric mole who tunnels the yard then disappears, a nervous alpha dog convinced she gets less food than her sister because she eats faster, and a house wren whose loud expectation is that she be let in. And there are others who populate the pages of this book, one stray cat, one ghost, but many who are human-soldiers, prisoners, wide-eyed children, matriarchs, Verdi in despair over having cast a plump Violetta who cannot play her role as a consumptive. All of those described here are vulnerable, some of them searingly so, and all are acutely aware of just how angular their worlds can be, whether accompanied by terror or hilarity.
