It begins with a postcard from Riley Brackett's wife to Clare McClendon, informing her that Riley has been in a serious accident and lost his memory of everything but her and the summer they spent together when Clare was seventeen. Could Clare come to Maine? Perhaps seeing her will cause Riley to recall his wife and two children, and the intervening years. Clare, dealing with a faltering marriage and her battle with breast cancer, agrees to the request against her better judgment. For Riley, things are now as they once were. Though Clare at first resists, she is soon caught up herself - in a way, as lost as he. With commitments to other people in their lives, there is no second chance for love - or is there? Annie Garrett ventures into Sue Miller and Elizabeth Berg territory with this moving novel about memory and its romantic, healing force in the present.
