著者:Nick Baker

出版者:University of Hawaii Press

出版时间:2008-12

装帧:Paperback

isbn:9789810594596

This is the most comprehensive account of Singapore's wild animals ever produced in one volume. Almost all terrestrial vertebrates currently occurring are described and illustrated in brilliant habitat photographs taken in Singapore: 38 mammals, 87 reptiles, 25 frogs and toads, and 30 freshwater fishes. There are additional chapters on how and where to find wildlife in Singapore, as well as checklists of all species ever recorded in the country, including those extinct, introduced, or of indeterminate status.
