The Protocol to the African Charter on Human and People's Rights on the Rights of Women in Africa (Africa Women's Protocol) was adopted on 11 July 2003 during the Heads of State and Government of the African Union Summit held in Maputo, Mozambique. The Protocol entered into force after it received the necessary 15 State Party ratifications on 25 November 2005. The Protocol provides a continent-wide legal framework for addressing gender inequality and the underlying aspects of the way that society is organized that perpetuate women's subordination and contribute to their marginalization and their occupation of the lower strata in all spheres of life. As part of its strategy to promote gender equality and women's empowerment, Oxfam GB Southern Africa supports a number of partner organizations to advocate for the universal ratification, popularization, domestication, implementation, and monitoring of the Africa Women's Protocol. These "Programme Insights" papers reflect some of the key strategies that partner organizations have used during these processes. This publication is a series of seven stapled papers in a folder.
