Dog lovers are a special breed of human. They are wise, kind, and aware of joy because they are well-trained by the dogs who own them. Photographer Bev Sparks captures the canines at their most mischievous, loving, and laughable moments. Wagging their tails. Poking through the fridge. Dozing in the sun. All who've been touched by the unconditional love of a canine will enjoy this pack of images, reflections, and stories about the pooches we adore and the lessons of friendship they bury deep in our hearts.
