"Derrida and Theology" is an invaluable guide for those ready to ride the leading wave of contemporary theology. It gives theologians the confidence to explore the major elements of Derrida's work, and its influence on theology, without 'dumbing it down' or ignoring its controversial aspects. Jacques Derrida: a name to strike fear into the hearts of theologians. His thought has been hugely influential in shaping postmodern philosophy, and its impact has been felt across the humanities from literary studies to architecture. However, he has also been associated with the spectres of relativism and nihilism. Some have suggested he undermines any notion of objective truth and stable meaning. Fortunately, such premature judgements are gradually changing. Derrida is now increasingly seen as a major contributor to thinking about the complexity of truth, responsibility and witnessing. Theologians and biblical scholars are engaging as never before with Derrida's own deep-rooted reflections on religious themes. From the nature of faith to the name of God, from Messianism to mysticism, from forgiveness to the impossible, he has broken new ground in thinking about religion in our time. His thought and writing style remain highly complex, however, and can be a forbidding prospect for the uninitiated. This book gives theologians the confidence to explore the major elements of Derrida's work, and its influence on theology, without 'dumbing it down' or ignoring its controversial aspects. It examines his philosophical approach, his specific work on religious themes, and the ways in which theologians have interpreted, adopted and disputed them. "Derrida and Theology" is an invaluable guide for those ready to ride the leading wave of contemporary theology. "The Philosophy and Theology" series looks at major philosophers and explores their relevance to theological thought as well as the response of theology.

评论

这本书特别好的一点就在于（尤其是相较于德勒兹那本），书的构成与编排本身就坚持了这一论点：德里达的哲学即非世俗亦非神圣，即非宗教的，亦非无神论的，所有的这些二分法都对德里达无效
