From Microsoft to the US Air Force, IBM to the FBI, Cisco to Wipro, thousands of security professionals are seeking the respected Certified Ethical Hacker (CEH) credential. You need information you can trust, delivered in a visual format that's easy

to understand and recall. You don't have time to wade through enormous books, and don't want to invest in live classroom training. That's where Preparing for the Certified Ethical Hacker (CEH) Exam Video Mentor comes in. In six hours of personal video mentoring, top IT security expert Shon Harris walks you through the key real-world techniques you'll need to pass your exams the first time. This DVD package is part of the new Shon Harris Security Series, products that will include the right resource for every CEH candidate, regardless of your learning style. In addition to this DVD, we will deliver CertPrepOnline, FlashCardOnline, Online Course, and Cert Snack offerings. UL LI20+ expert DVD videos from Shon Harris, top enterprise security consultant and author of the world's #1 CISSP study guide LIThe best of classroom training for a fraction of the price, in a convenient, flexible visual format LICovers all 10 CISSP domains of knowledge - from access control to business continuity to security architecture - all using live equipment and real-world scenarios/LI/UL
