Experience the language learning method millions around the world have come to trust Unlike most language learning systems, the Michel Thomas Method enables you to naturally and intuitively develop the building blocks for language comprehension.

You can pick up Polish quickly and easily through listening, speaking, and thinking through the language. Guided by a language instructor and native speakers, "Speak Polish Get Started Kit" takes you through an interactive lesson with two other students. In less than two hours, you will have the ability to put together words and phrases together naturally and make your own sentences.
