Set in the middle of the fourteenth century. Sir Nigel is a swashbuckling story of the eponymous hero as he seeks his fortune and the hand of his lady-love in England and France in the early part of the Hundred Years War. It is full of high romance and chivalry, battles and brutality, humor and sheer rumbustiousness as the impoverished

Nigel Loring and his lascivious attendant Aylward seek their fortunes. Edward III, the Black Prince, Sir John Chandos -- one of the original Knights of the Garter -- all make their appearances in one of the favorite books from the creator of Sherlock Holmes.
