What Teachers Need to Know About Teaching Methods explains the different theories of teaching and learning, together with their underlying principles and methods. It defines the role of a teacher in the learning process and looks at the latest research on what contributes to effective practice. Teaching Methods deals with important key issues and provides a wealth of references for further study and exploration in the subject.

作者介绍:

目录: Preface v

1 Conceptualising learning and teaching 1

Constructivism 3

Active learning 4

Deconstructing constructivism 5

Direct teaching 9

Direct Instruction (DI) 11

Interactive whole-class teaching 13

2 Direct teaching methods: Suitability for purpose 16

Varieties of direct teaching 17

Lectures 18

Classroom mini lectures 22

Teacher-directed lessons 23

The important role of direct teaching 24

3 Student-centred methods: Suitability for purpose 26

Student-centred approaches 26

Inquiry-based methods 27

Discovery learning 28

Problem-based learning 31

Project-based learning 33

Resource-based learning 35

Computer-assisted learning 36

4 Teaching methods: Suitability for students 39

Young learners 40

Gifted students 41

Students with learning difficulties 44

Students with disabilities 47

5 Effective teaching 56

Process-product research 57

Beyond process-product studies 58

Key evidence from research on teacher effectiveness 58

Criticisms of the effective teaching data 60

Pedagogical skills of effective teachers 60

Cooperative learning and the use of groups 68

Peer tutoring and peer assistance 69

6 Assessment of learning 71

Purposes of assessment 72

Formative assessment 73

Testing 76

Curriculum-based assessment 78

Outcomes-based education 80

Assessment should lead to improved teaching 80

7 The gap between research and practice 82

Research appears not to impress teachers 83

Perpetuating the use of unproven methods 84

Two effective models that are rarely used 85

Perhaps the pendulum is beginning to swing 86

Research-based methods 87

References 89
