isbn:9781564779113

This is a stunning collection of original quilts - all using the same colour & design guidelines, but each totally unique! In a burst of creativity, Sharyn Craig and Pamela Mostek - both highly respected and popular quilters - challenged each other to make

eight quilts using specific design and colour guidelines. Because each designer brings their own unique style, the results are spectacularly different - in fact, each of the designs on the front cover come from the same challenge! "Quilt Challenge" not only features gorgeous and inspirational full-colour photographs of each of the finished quilts, but also gives readers a rare glimpse into the creative process of two top designers.
