This book provides procedures and examples on how to set up a monitoring and evaluation system, how to conduct participatory evaluations and do social mapping, and how to construct a "rigorous" quasi-experimental design to answer an impact question. This comprehensive text is an essential tool for those involved in

development evaluation. The Road to Results is also available as an interactive e-book, using technology developed by educators specifically for textbooks and other learning materials. Visit [www.worldbank.org/r2r](http://www.worldbank.org/r2r) for more information.
