This card deck provides more than 300 review questions for the five nursing areas covered on the NCLEX-PN fundamentals, medical-surgical nursing, psychiatric-mental health nursing, maternal-neonatal nursing, and pediatric nursing plus a comprehensive test of 85 questions in random order. Each card has an NCLEX-style question on the front and the correct answer and rationale on the back.

This edition has been expanded and updated to match the 2008 NCLEX test plan and includes every type of alternate-format question that appears on the exam, including multiple-response multiple-choice, fill-in-the-blank, hot spot, drag-and-drop, and chart-exhibit questions. The cards are shrink-wrapped with a hole punch and ring.
