This major reference work will break new ground as an electronic resource for

students, educators, researchers and professionals. Encyclopedic in breath Child Behavior and Development will serve as a reference repository of knowledge in the field as well as a frequently updated conduit of new knowledge long before such information trickles down from research to standard textbooks. Child Behavior and Development will consist of three volumes divided by the major conceptual areas of child development: Learning, Behavior, and Emotions. Taking advantage of the techniques offered by the electronic medium, Child Behavior and Development will offer an extensive cross referencing system facilitating search and retrieval of information.
