Nick Reynolds, his pilot's rating barely a month old, drops off the radar at night over the Chesapeake Bay. Investigating agencies call it another tragic pilot error accident. No trace of the plane is found in the Bay's murky waters. Ike Schwartz, erstwhile sheriff of Picketsville, on vacation, is approached by Charlie Garland, an old CIA friend, to look into the disappearance. The missing pilot was engaged to Charlie's niece and the family is not dealing well with the lack of closure. More importantly, Nick, just before his disappearance, had placed a call to Charlie moments leading him to conclude something more than pilot error might be involved in the disappearance. Ike accepts the assignment as a favor to Charlie and also because vacations do not work for him. Ike's wide-eyed entry into a simple missing person's case catapults him into an international thriller a la Robert Ludlum with intimations of terrorism that might threaten the nation and its leaders. Clandestine operations, angry watermen, and out of place dredging spoil complicate Ike's efforts to unravel the mystery.
