This is a unique guide to drugs restricted in sport. This is an A-Z guide by drug name (INN) of over 450 drugs restricted in sport. Each drug monograph has a regular structure containing a list of synonyms, drug profile (medical use), World Anti-Doping Agency (WADA) classification; restriction in sport (in and out of competition); and a list of single and multi-ingredient proprietary preparations containing the drug from 40 countries worldwide (Martindale data).
