Containing over 40 activities specifically designed for teenagers, this is an ideal

photocopiable resource for busy teachers. The activities cover three popular themes - Film, TV and Music - and they provide graded supplementary material for three different levels, elementary, intermediate and upper-intermediate, all in one book. Based on the theory of multiple intelligences, there is a variety of tasks including role-plays, quizzes, board games and debates which practise all four skills in a fun way. Each activity is supported by step-by-step teacher's notes and extension ideas ready to photocopy and go!
