In years past, immigration into the United States was treated as a privilege, not a right to be granted automatically just by being able to make it to America's shoreline or borders. Today, however, the entire process of immigration has been drastically politicized by both major parties in Washington, D.C.; one party sees votes - the other, cheap labor. This is investigative journalist Jon Dougherty's probing look into how this indiscriminate immigration is tearing at the fabric of our culture and society. Interviewing Border Patrol agents, local residents, citizen-enforcement groups and even the immigrants themselves, Dougherty examines the implicit dangers of our reckless attitude toward admittance, showing how all American citizens, native-born and otherwise, are consequently threatened by welfare fraud, drug lords, and terrorism. This is the untold, unnerving true story about the social and political turmoil on the U.S.-Mexico border.
