A kid-appealing book that brings the power of letters directly to early learners. Designed by leading experts in education, the "Brighter Child Book of the Alphabet" offers children critical reading, phonics, and letter-recognition skills in fun,

easy-to-understand lessons. Its systematic approach first teaches children how to recognize, trace, and write letters, and then learn the sounds the letters make as they complete a variety of exercises. What makes the "Brighter Child Book of the Alphabet" so different from other books? It's the most complete book that offers: - Practice and reinforcement of phonics and letter-recognition skills. - Full-color, kid-appealing illustrations and exercises to help children succeed in reading. - Review pages that evaluate progress. - A special section that features alphabet songs, rhymes, and activities to make learning the alphabet fun. The "Brighter Child Book of the Alphabet" is the essential guide for early reading
