This guide provides listings and reviews of the 350 very best sites on the Internet for learning about careers, college, training, and job search. It includes addresses for accessing free job search resources in all 50 states. This helpful guide provides vital help for anyone looking for a job; choosing a career; selecting a college, major, or

training program; applying for financial aid; updating skills; starting a business; joining the military; or temping, freelancing, volunteering, or telecommuting. New content for this edition includes completely updated and reviewed Web sites; tips on how to start a blog and find relevant blogs to read; guidance on online social networking and portfolios; and resources for choosing a college major.
