著者:James W. Wood

出版者:Transaction Publishers

出版时间:1994-12

装帧:Paperback

isbn:9780202011806

This long-awaited book presents a comprehensive, integrated and up-to-date overview of the major physiological and behavioral factors affecting human reproduction. Trained as an anthropologist as well as a demographer, the author summarizes data from a wide range of societies, and writes with signal clarity on the interaction between biology and behavior. A unique combination of comprehensive subject matter and an integrated analytical approach makes the book ideally suited both as a graduate-level textbook and as a reference work.
