出版者:W. W. Norton & Company

出版时间:1991-4-17

装帧:Paperback

isbn:9780393307795

Supporting this thesis with archaeological evidence previously unavailable to historians, Chester G. Starr resents a masterly reconstruction of an obscure but important period of Greek history. He argues that true Greek civilization was swiftly and spontaneously generated in a remarkable autonomous renaissance during the two centuries from 850 to 650 B.C.
