"The History of the German Resistance" is the most comprehensive and authoritative account ever published of the German opposition's struggle against Hitler, covering all the serious attempts to overthrow or assassinate him leading up to the failed attempt of 20 July 1944. Extensive notes, a full bibliography, maps, plans, diagrams, and a comprehensive index complete this indispensable and definitive account. The English version of the book has been extensively revised and expanded since its original publication in German. This edition includes a new preface and an updated bibliography. Peter Hoffmann is professor of history, McGill University.
