The Skill Builders help students prepare for the specific skills and subjects tested on an exam. They are designed to tutor students on every skill level, from high school to graduate or professional school. Keys are included to show students which chapters to study for specific tests. REA's Reasoning Builder reviews all reasoning questions covered on standardized tests such as the GMAT, GRE, LSAT, and other such exams. The book is comprised of chapter reviews in both logical/critical and analytical reasoning, which include practice tests, drills, and helpful strategies.
