Sculptor and Master Modeller, Pete Armstrong, shares the skills and techniques that

have made him one of the great figure modellers working today. In this classic Masterclass series book, his practical and detailed text describes construction methods, super-detailing, conversion work and finishing techniques used on a series of modelling projects from the ancient and medieval world. Crammed with models of Anglo-Saxons, Romans, mounted knights, knights Templar, castles, kings, bowmen, billmen and monks! All backed up by 250 colour photographs and drawings.
