In the green meadows of Val Federia the stones which the winter protected are now naked and warmed by the summer sun. Land Art in Livigno recounts the artistic event held in this beautiful mountain resort, which brought together sculptors from all over Europe. Enza Tamborra's photographs allow us to experience the emotions felt when witnessing the birth of stone sculptures, rock upon rock, the creativity of the artists, the strength involved in raising boulders, the pledge to preserve the perfect balance with the surrounding flora and fauna.
