Warren Adler is the acclaimed author of 25 novels, published in 30 languages. Two of his books, "The War of the Roses" and "Random Hearts" were made into major motion pictures. He lives in Jackson Hole, Wyoming and New York City. Fiona FitzGerald, senator's daughter turned Washington, D.C., homicide detective, is called in to investigate when the daughter of a prominent lawyer is found murdered. All clues begin to point to a revered Supreme Court Justice with a sadomasochistic fetish. The Ties That Bind is the sixth book in Warren Adler's Fiona FitzGerald series. The first mystery, American Quartet, was on The New York Times list of top ten crime novels of the year. Try the other Fiona mysteries: American Quartet, American Sextet, Senator Love, Immaculate Deception, and The Witch of Watergate. "Adler sets well-connected Washington homicide dick Fiona FitzGerald another high profile puzzle most satisfying." Kirkus Reviews "The Welcome return of an intense, likeable heroine." St. Louis Post-Dispatch
