This text is a guide to critical thinking and composition courses. It covers just the basics of critical thinking using an acronym called TCDR (Topic, Class, Description, Relevance). The text grounds the student in the basics of the technique and uses

exercises to drive lessons home. It also shows students how to use critical thinking across the curriculum. In addition, the new Part Three covers critical thinking in relation to using new computer technology. This book can be used as a main text or a supplement.
