Offering fresh insights for both professionals and sophisticated investors, Stock Market Stratagem focuses on the all-important task of loss control and the necessary adjustments to portfolio management in a volatile environment. It provides serious equity investors with an unambiguous methodology for being in the right stocks, at the right time, in the right proportions - and with the right exit strategy. A seasoned researcher and investor, Glett explains the need for an airtight portfolio methodology as a necessity to control losses and explores some common scenarios and fallacies that lead to the majority of stock market losses. In addition, the book offers in-depth coverage of how to pick high-potential stocks and includes a set of criteria to help investors in this key task.
