出版者:

出版时间:2003-1

装帧:

isbn:9780736816595

Early readers easily dive into nonfiction texts with the help of this supportive series. Rich, vibrant photographs capture readers' interest and provide a realistic perspective that illustrations cannot capture. This series supports units on oceans and the intriguing world of coral reefs. This series explores and supports the standard "The Living Environment: Interdependence of Life," as required by the Benchmarks for Science Literacy: Project 2061.
