出版时间:2003-5-22

装帧:Paperback

isbn:9781861529268

This bestseller offers a complete introduction to financial management and corporate finance modules for a one-year university course. It is a relatively non-mathematical text and its simple explanations of a complex area have made it extremely popular with students. The author's educational and training expertise is reflected at every stage of

the book: worked examples are given after each explanation, followed by a chapter summary, quickie' questions and more detailed practice questions. The quickie' questions are all answered at the back of the book and the accompanying teacher's manual contains answers to all the remaining questions.
