Art Bernstein's tales of the strange-but-true events that occur on a hiking trail--or just while trying to find one--cover ground from Juneau, Alaska to the Florida Everglades. These 13 (well, 14--but two happened on the same hike) tales of unexplained phenomena, mythical beasts, and just-plain "Weird Hikes" are sure to entertain avid hikers and the people who love them. Entertaining, thought-provoking, and funny, this collection of essays is the result of a lifetime of hiking and an inspiration for readers to get out and experience their own "Weird Hikes,"
