The story of the peasant's son who became an emperor and the dissolute actress who resided beside him on the throne is one of the greatest and most controversial romances of history. United, they presided over a key epoch in the formation of Europe.

作者介绍:

Robert Browning (1812-1889) was born in Camberwell, London, the son of a clerk in the Bank of England. The strongest influence on his education were the books in his father's extensive library, particularly the writings of Byron and Shelley. His dramatic poem "Paracelsus," published in 1835, established his reputation and brought him the friendship of the actor-manager William Macready. When Macready's eldest son Willie was ill in bed, Browning wrote for the boy's entertainment the poem of The Pied Piper, a story he remembered from his own childhood. After its appearance in print in 1842, it became a children's classic, attracting new illustrators in every generation.

In 1846 Robert Browning married a fellow poet, Elizabeth Barrett, eloping with her to Italy where they lived until Elizabeth's death in 1861. He then returned to England to live with his only sister Sarianna, but later he went back to Italy, where he died at the Rezzonico Palace in Venice.
