Book Description

The Magic School Bus was a series of children's books intended to teach scientific concepts to children. The books feature the exploits of Ms. Frizzle and her class of students at Walkerville Elementary School who board a magical school bus which takes them on educational adventures to space, under the Earth, into the human body, or to other such locations. The books were written in the first person from the point of view of an unnamed student in the Friz's class.

Synopsis:

Hi. I'm Carlos - one of the kids in Ms. Frizzle's class. I know Ms. Frizzle thinks of some е

weird ways to teach about science, but challenging Mr. O'Neatly's class to a science contest was her craziest idea to date. Mr. O'Neatly's class always wins everything!Th contest topic was magnetism, and we hadn't even started our unit yet. The Friz said she thought we'd have a natural attraction to the topic, but nothing could have prepared us for what happened next. Wait til' you hear about this!
