This title contains sticky notes in the shapes of your favorite Paul Frank characters - Julius the monkey, Clancy the giraffe, and other quirky animal friends. They make writing notes a blast! Paul Frank overview: Paul Frank Industries began as a small

accessories company in a Huntington Beach garage in 1995. The popularity of the vinyl wallets and bags they were making led the humble enterprise to expand into apparel and merchandise ranging from men's and women's sportswear, pajamas, kid's clothing, eyewear, watches, bedding, home textiles, umbrellas, bicycles, and more! They have grown to be one of the most visible product lines in the world today. PFI collections are available at top retailers such as Nordstrom, Bloomingdale's, and Macy's, and their products have appeared in numerous movies and TV shows.
