St. Benedict's Rule is one of a handful of documents, such as the Magna Carta and U.S.

Constitution, that make up the foundation of Western civilization. Benedict's Rule is an organizational blueprint for success; Benedict's original organization is the oldest in the world, spanning more than 1,500 years. The beauty of The Rule is its organizational genius, which has wide application beyond monastic groups. The Rule is a basic textbook showing how to create and maintain effective organizations. It offers today's reader insights into some of the most difficult resource management issues in business.
