Vintage shots of Harleys from the archives of a dealership in the middle of Route 66 combine with great color photos from a recent Harley Owners Group tour down the Mother Road to make this the perfect gift for Harley riders and for anyone who collects Route 66 memorabilia. The images capture the fun of being on the loose in the heartland, where you encounter the world's best folks at the mom-and-pop tourist stops along the Main Street of America. This great little collection will inspire you to hit the road yourself and mail the postcards to twenty- two potential road warriors back home
