He wants more than she's giving-he wants all of her. She wants to slow things down. Powerful witch Armand Bellamy moved from Paris to the Motor City to pursue Desdemona, sassy PI and reluctant sorceress. As Desy sleuths cases of jewelry theft at a riverfront hotel and of a crafty real estate agent suspected of adultery, she foresees neither the upcoming conflict with a sanity-impaired Wiccan Priest nor that the winding road of her relationship with Armand is paved with a six-foot-one blond-haired, blue-eyed speed bump. Nick Sage, Desy's business partner and best friend since childhood, separates from his wife-and is intent on claiming Desy as his own. Hang on. It's going to be a bumpy ride.
