Introducing a new title in the Procedures in Cosmetic Dermatology Series! This breakthrough reference presents up-to-the-minute, practical guidance on the full

range of chemical peel procedures including superficial peels, light peels, medium depth peels, and more-edited by one of the foremost pioneers in the field, Mark G. Rubin. Succinctly written and lavishly illustrated, this resource focuses on procedural how to's and offers step-by-step guidance on proper techniques, pitfalls, and tricks of the trade. An accompanying DVD shows clips of key techniques so you can implement the newest procedures into your practice immediately.

Covers the hottest topics in chemical peels-including the latest techniques for deep phenol peels-all in one concise, accessible volume. Provides the "tricks of the trade" of practically minded, technically skilled, hands-on clinicians. Features a wealth of color illustrations and photographs that depict cases as they present in practice. Discusses common pitfalls and emphasizes how to optimize outcomes, enabling you to improve your technique. Highlights emerging topics in the field, with guidance on the newest developments in cosmetic surgery. Comes with a comprehensive DVD containing video clips of techniques and procedures as well as the experts' hints and tips.
