This new chronological edition is based on the well-established topically organized text by Bukatko and Daehler, *Child Development: A Thematic Approach*, 5/e. Addressing physical, social, and emotional development in a linear fashion, this text starts with pre-natal development and progresses through birth and the newborn baby, infancy and toddlerhood, early childhood, middle childhood, and adolescence. Developed to accommodate the more applied focus of courses in nursing, parenthood, education, family studies, and human ecology, this text benefits from the authors' focus on research through an emphasis on developmental themes.
