""Your book should help bridge the gap between the academic definitions and research on Matriarchy and real world initiatives."" BEATA MURRELL, MATRIARCHAL SCHOLAR ""When a cork is no longer held down it rises up. This is what has happened with Women."" WILLIAM BOND, AUTHOR OF ""GOSPEL OF THE GODDESS"" Patriarchy is destroying the planet, and everything on it. Fortunately, patriarchy is at an end. Changes have occurred, both inner and outer, to transform our society from a 'conquest domination/exploitation principle into one of 'nurturing/caring/justice.' This monumental shift is so vast, that it is not easily seen in details nor at all moments. As we look at day to day existence, male domination is everywhere. But if we look at the big picture, at statistics, studies, astute observation, and by the insight of those who have been focused on the subject, it is obvious. The book begins with the series of articles explaining that males exhibit the need to worship women, an ancient practice forbidden in patriarchy, now surfacing in secular forms. From whence is this need? Why do women show no need to conversely, worship males? This and more are all explained here.
