Kona Kai- When Max Carson agreed to have his boat, Bimini Twist, ferried over to the Hawaiian Islands on board the luxury yacht Felicity, he was expecting to enjoy the summer with his boys P.J. and Gaffer, fishing in the quiet waters off Kona, the blue marlin and yellowfin capital of the world. And in fact the fishing action was everything they expected. Mahimahi, yellowfin tuna and several varieties of marlin were their constant hook-ups in this sport fisherman's paradise. And the new friends they meet in Kona are interesting and colorful. But even paradise can have its share of unexpected thrills and danger, and this trip to Hawaii proved that point many times. Teenagers who do stupid things, the tremendous forces of nature in the forms of erupting volcanoes, wild game fish and an angry mother humpback combine to make this a Bimini Twist Adventure to remember.
