Bright and jolly illustrations fill every square inch of this book and help make times of saying prayers feel exuberant and enjoyable as well as sentimental and reassuring. The prayers are arranged to match key themes in a child's life - prayers for special times through the day and year, family prayers, prayers for a wonderful world and prayers for

quiet times - so that it is easy for grown ups to read a section with a child in any one sitting. The book features a padded cover which adds to its appeal.
