The name "Curcione" is synonymous with professional saltwater fly fishing. Through the salt scene of the 1980s and 1990s, Nick Curcione developed and wrote about flies and methods that changed the way people fished inshore and off shore. Curcione shared the water with many of the great veteran fly rodders of his time, and that

collected experience and knowledge enrich this book. The coastal angler who chases striped bass, albacore and various tunas, sea trout, yellowtail, tarpon, and many other species will find all the guidance he needs in these chapters.
