Witty, unpredictable and thoroughly engrossing, Chapman's Car Compendium will transport you along the highways and byways of the automotive world in pursuit of lesser-known facts and fascinating motoring trivia from around the globe. What is the brake horsepower of the 10 most powerful production cars of all time? Which is the world's biggest car park? What is the difference between nerf bars and wheelie bars? The answers to these and hundreds of other tantalizing questions are all here in this addictive book that will inform and amuse car enthusiasts everywhere.
