The MCAT Biology Book provides a comprehensive overview of MCAT biology appropriate for all pre-med students preparing for the MCAT exam. With this and its two companion volumes, The MCAT Physics Book and The MCAT Chemistry Book,

Nova Press provides the most comprehensive series of test-prep books for the MCAT. In twenty-one chapters, the basics of biology are described in easy-to-understand text. Illustrations help emphasize relevant topics and clarify difficult concepts. Each chapter concludes with a set of problems modeled after the MCAT exam, with complete explanation of the answers. Also, includes a thorough analysis of the MCAT verbal section. Authors Nancy Morvillo and Matthew Schmidt both obtained their Ph.D. in genetics from the State University of New York at Stony Brook.
