Provocative and controversial, the information found in Empowered Investing reveals powerful tricks of the investment trade. It will give you the education and information to be a confident, informed, and hugely successful investor. The most successful investors in history, such as Charles Henry Dow, used unique analysis and charting methods. These are the secrets Wall Street doesn't want you to know. Relying on the media and Wall Street research is painful and no longer necessary. With the advice offered by author Joseph F. LoPresti, you'll learn to chart stocks like Dow, isolate hot sector opportunities, and select the strongest stocks to buy through a series of easy, almost effortless strategies. These exercises will also help you reduce risk and give you a "sell discipline," something desperately needed by most investors. Once you read "Empowered Investing," you'll see how easy it is to implement these startling strategies. "Empowered Investing" will introduce a different way to make investment decisions that will instantly help you manage your portfolio, build your wealth, and enrich your life.
