In a time before computers, cell phones, Xbox and iPods, there lived a family of seven on a small farm outside of Rose Hill, Iowa. The Garrett family lived a simple life, filled with chores and animals. Twins Marion and Michael used their imaginations to fill their days with endless delight and adventure. How sweet the sound of children

playing and their adventures taking them
through the fields of life to the far reaches
of the universe! Their journey brings them

to great discoveries of hope through their
vivid imaginations
Mimi K.
